Introduction

Equipped with excellent decoding performance, the Desktop Detacher can efficiently unlock the EAS tag by its host and decoding board. The tag can be deactivated just by passing within 20 cm above the decoding board. Not only does it feature an excellent anti-theft detection rate as well as superior anti-interference capacity, but it has proven its unmatched detection rate by working with the AM anti-theft antenna.

Features

Remote Unlocking
The tag can be deactivated just by passing within 20 cm above the Remote Detacher.

Robustness
High-quality shell material advances convenient use and long service life.

Good Detection Effect
High detection rate and good anti-theft effect.

Scene

The deactivator can deactivate various Waythcare-R Series Remoting Tags.
